

**POSITION TITLE: Post doctoral fellows, substance abuse research**

**EMPLOYER: Duke University Dept. of Psychiatry**

**LOCATION (City, State): Durham, NC**

**WEBSITE:**

### **JOB DESCRIPTION**

---

Two postdoctoral fellows are available immediately, a two-year position (PI: Li-Tzy Wu; Collaborators of the team: Dan G. Blazer, MD, PhD; Walter Ling, MD; George E. Woody, MD). Knowledge of statistical packages (eg, SPSS, SAS) is required; knowledge of Mplus or analysis of national survey data or longitudinal data analysis is a plus. Successful candidates are expected to work with the team on analyses of research data (surveys, NIDA Clinical Trials Network), preparation of research manuscripts in areas related to addictions, HIV risk, treatment, or methodology, and submissions for peer review. Successful candidates will have ample opportunities to work on first-authored manuscripts. There are opportunities for academic advancement. Duke University School of Medicine ranks fifth among U.S. medical schools. Salary is commensurate with NIH guidelines and applicant experience. Applications will be reviewed on a rolling basis until filled. **To Apply:** Please email the C.V., a brief statement of career objectives, and names of references to: Li-Tzy Wu ([litzzy.wu@duke.edu](mailto:litzzy.wu@duke.edu)), Professor of Department of Psychiatry, School of Medicine Duke University Medical Center
