Call for Nominations**

ECPN Early Career Award Nominations Process

This award is presented annually by the Early Career Preventionist Network to a person early in their career in prevention. This award will be bestowed on someone who has shown a commitment to prevention science through outstanding contributions to research, policy, or practice. The award is presented at the Society for Prevention Research Annual Meeting Awards Presentation and Reception.

Eligibility:

- Nominee must be an early career scientist, defined as within 10 years post terminal degree.
- Nominee must be a member of the Society for Prevention Research at the time of nomination.

Nomination Process:

- Complete nomination packet includes Nominator's Supporting Statement, an additional Letter of Endorsement, and the Nominee's Curriculum Vitae.
- Nominator's Supporting Statement should address the nominee's contribution to the field of prevention science as evidenced by their activities in research, policy, service, and/or teaching. The strongest letters will include an indication of the potential long-term significance and impact of candidate's activities on the field of prevention science.
- The Letter of Endorsement may be less encompassing but should address similar themes.
