The International Networking Forum

Tuesday, May 28, 2013

1-5 p.m.

Bayview A

at the

2013 Annual Meeting for the Society for Prevention Research

Hyatt Regency San Francisco, CA
Table of Content

1. Description of the International Taskforce
2. Introduction of taskforce members with a brief bio and contact information
3. Introduction of advisory group members with a brief bio and contact information
4. Motivation and status of the “prevention hub/prevention registry” workgroup, including plans for the next 12 month
5. Motivation and status of “successful international collaborations” workgroup, including plans for the next 12 month
6. Motivation and status of “seed monies” workgroup, including plans for the next 12 month
7. Motivation and status of “International infrastructure” workgroup, including plans for the next 12 month
8. Ways for members to get involved
9. Link to the SPR newsletter as well as Facebook page
10. List of sessions and round tables focusing on international research efforts
The International Taskforce (ITF)

The ITF meets on a (nearly) monthly basis via teleconference calls. We have established a number of ongoing goals for the later part of 2012 and for 2013.

Our first goal is to provide networking opportunities for international colleagues to meet both face-to-face and virtually to exchange information on prevention science. We have hosted a yearly pre-conference networking forum at the annual meetings and will continue to provide this International Networking Forum at the 2013 conference in San Francisco (click here for agenda http://www.preventionresearch.org/2013-annual-meeting/international-focused-events/).

A second goal of the ITF is to facilitate and support the sharing of prevention science scientific knowledge and ideas worldwide. Members of the ITF have actively supported the Drug Prevention and Health Branch of the United Nations Office on Drugs and Crime (UNODC) in their efforts to develop international prevention standards that emphasize science based prevention strategies. Towards this end, the SPR Board has written a letter of support to the UNODC effort. The ITF has been actively engaged in the yearly SPR conference planning, supporting development of roundtable, plenary, paper, and poster sessions.

A third goal of the ITF is to identify opportunities for establishing “seed monies” for international collaborations to become established for the purposes of advancing prevention science globally. One of the issues for supporting collaborations is that there is a need to provide opportunities for face-to-face encounters between prospective collaborators so that ideas and proposals can be developed. One source of support for these seed monies has been the funding from NIDA that has supported travel funds to a small number of international colleagues who are presenting posters at the NIDA International Poster Session. The Task Force wants to identify other possible sources of funding to support opportunities and make members aware of these potential opportunities.

The ITF is incorporating an advisory board to the task force that will represent different regions around the world and will assist the board in identifying issues, strategies, and opportunities for achieving our goals. In addition the advisory board will assist the ITF in reviewing and updating our goals as we move forward. We are currently developing this board and to date, the following individuals have agreed to serve on this advisory board: Gregor Burkhardt (Portugal), Harrie Jonkman (Netherlands), Renati Solomon (India), Jeremy Segrott (UK), Meen Chhetri (Nepal), Dale Weiss, (USA-NIDA), Giovanna Campello (UNODC), Hanna Heikkila (UNODC), Methinin Pinyuchon (Thailand). Additional names are currently being considered.

International Task Force (ITF) members

Brenda Miller (Chair; USA): Brenda A. Miller is a Senior Scientist at the Prevention Research Center, Pacific Institute for Research and Evaluation at Berkeley, Ca. She is serving as the Chair of the SPR International Task Force. Recently, she served as a consultant to the United Nations Office on Drugs and Crime regarding the creation of the International Standards on Drug Use Prevention. Her current NIDA and NIAAA funded research focuses on young adult risky behaviors in clubs, specifically addressing alcohol and drug use, risky sexual behaviors, aggression, and drinking and driving issues. She also has NIAAA funding for developing an online family-based intervention for older teens to
Josipa Basic (Croatia): Josipa Basic is a professor of Theories of Prevention of risk behavior in children and youth and more other courses in undergraduate, graduate and postgraduate studies. She works in the Department of Behavior Disorders at the Faculty of Education and Rehabilitation Science, University of Zagreb, Croatia. She is the founder and the head of PhD study in Prevention Science (with international collaboration) and Director of the Prevention Research Center at the same Faculty. She published over 130 papers in peer-refereed journals (in Croatia and some International journals) and 14 books mostly in the field of prevention and one university text book. Professor Basic was involved in many national and international scientific projects (US and EU) and involved so much energy in capacity building (mostly people capacity) in Prevention Science and practice in Croatia particularly in Istria County. In 2002 she received the State Annual Scientific Award for prevention model implemented in Croatia and 2012 the International Collaborative Prevention Research Award from the Society for Prevention Research, US. She is recognized in Croatia as a pioneer in Prevention Science and she gave many presentations all over the Croatia and is also involved in many important bodies on the national level. She was the first president of the Croatia Governmental Committee for Prevention of Behavior Disorders among Children and Youth, the Council for Children and the Committee for Mental Health.

Moshe Israelashvili (Israel): My studies and interventions focus on the prevention of children and youth maladaptive behavior, as manifested through drug abuse, suicidal behavior and mental health problems. Of special interest for me is the exploration of the antecedents of the lack of resilience alongside ways to promote it, especially in times of (pre)transitions. In my academic position I teach graduate research seminar on prevention and guide MA and PhD thesis on relevant topics. Besides that I am intensively involved in counseling the Israel Ministry of Education, Israel Anti-Drug Authority (IADA) and Israel Science Foundation on issues related to prevention, school mental health and school adjustment.

Jeff Lee (UK): Jeff Lee is Project Manager for the European Drug Prevention Quality Standards Phase 2 initiative at Liverpool John Moores University in the UK. His main role with this project is to coordinate and support the work of the European partners engaged with this important new development. Jeff has previously worked as Executive Director of Mentor International, substance abuse prevention focused international NGO and before that as the Director of the Advisory Council for Alcohol and Drug Education a National NGO based in Manchester. One of Mentor International's primary aims is to identify, support, and disseminate best practice in prevention for practitioners and policy makers, particularly through their "Prevention Hub" initiative. Jeff continues to work as Senior Scientific Advisor to Mentor International to support this program. Initially a teacher, Jeff’s focus has always been to promote the role of health and education in preventing drug misuse among young people within the context of promoting health and wellbeing. He has undertaken a range of project management work around the world and developed a particular reputation for his training and resource development in the field of life skills education. Jeff has worked in more than 80 countries and which has included
consultancy work for governments, the EU, WHO and UNODC. Jeff also has a commitment to helping transfer the work of science, research and academia to become relevant and accessible to the practitioner and policy maker. His recent work as a consultant to the United Nations Office on Drugs and Crime in preparing the International Standards for Drug Use Prevention in 2012-13 report reflects his involvement in this as does his activities with the Society for Prevention Research and their International Task Force and with the European Society for Prevention Research. Jeff has written and contributed to a number of publications including: Educational and Family approaches to Drug Prevention for Young People (in process, with Eric Carlin, 2013); Tackling Doping in Africa through Partnership: World Sport Law Report Vol 11, Issue 1, 2013; Drugs and the Developing Brain (Winters K., Lee J., Hazelden, 2011); Developing Best Practice for Effective Drug Education (NCCM/UNODC/Arab Region, 2005); Principles of Best Practice of School Drug Education (UNODC, 2005); Life Skills Education and Prevention ( ICAP, 2004) Lessons Learned in Drug Abuse Prevention: A Global Review (UNODC, 2004).

Hanno Petras (Germany, USA): Hanno Petras, formerly the Associate Director of Research and Development for JBS International and currently Chief Prevention Methodologist and Principal at JBS International was trained in sociology with an emphasis in medical sociology, health psychology and quantitative methods from Christian-Albrechts University in Kiel, Germany. Intrigued by the emerging field of prevention science, he consequently pursued training opportunities in this important area of research. He completed his postdoctoral training in Prevention Studies and Health Services Research at the Johns Hopkins Prevention Research Center (HPRC), a center known for conducting rigorous NIMH-funded prevention trials and expertise in the application of new methods for the analysis of change over time. During the course of his training, Hanno was mentored by leading scholars in prevention science and methodology, including Shep Kellam, Phil Leaf, Hendricks Brown and Bengt Muthén. Before joining JBS, Hanno was an Assistant Professor in the Department of Criminology and Criminal Justice at the University of Maryland (2005-2009) and a Research Scientist at the CDC funded Center for Youth Violence Prevention at Johns Hopkins University (2002-2005). In addition Dr. Petras serves as an adjunct Assistant Professor in the Department of Mental Health at Johns Hopkins University’s Bloomberg School of Public Health and as an Affiliate at the Maryland Population Research Center. His research interests and expertise are in the development of antisocial behavior, the design and evaluation of preventive interventions and the appropriate application of statistical methods using latent variables. He serves on the Board of Directors for the Society for Prevention Research and is an active member of the Prevention Science Methodology Workgroup. He is an experienced reviewer for peer reviewed journals and serves as the Consulting Editor for Prevention Science. He has published extensively in peer-reviewed journals and is currently editing a book series with Dr. Zili Sloboda entitled Advances in Prevention Science that focuses on defining prevention science.

Zili Sloboda (USA): Zili Sloboda, formerly the Director of Research and Development for JBS International, Inc. was trained in medical sociology at New York University and in mental health and epidemiology at the Johns Hopkins University Bloomberg School of Public Health. The majority of her research has been related to the delivery of health-related services to youth and adults and epidemiology. She is an expert on the prevention of substance use by adolescents and has broad experience in research related to at-risk youth. More recently, while at The University of Akron’s Institute for Health and Social Policy she was the Principal Investigator of a multi-site random control
trial of an innovative school-based substance abuse prevention program delivered by D.A.R.E. officers that followed 19,200 students over five years. Prior to her University appointment, Dr. Sloboda worked for twelve years at the National Institute on Drug Abuse in several capacities, finally as the Director of the Division of Epidemiology and Prevention Research. This Division’s focus was on the development and support of national research programs in HIV/AIDS epidemiology and prevention and drug abuse epidemiology and prevention and at the time had the responsibility for several large national epidemiologic and treatment data systems. She was a founder of the Society for Prevention Research and is well-published in the area of drug abuse epidemiology and drug use prevention. Her two major books include the Handbook of Drug Abuse Prevention and the Epidemiology of Drug Abuse. She and her colleague, Dr. Hanno Petras, are currently co-editing a book series on Advances in Prevention Science. The first book in the series, Defining Prevention Science, is expected to be released by Springer Press in the fall of 2013. In addition, she has a long standing commitment to the dissemination of evidence-based programming and the advancement of Translation I and II research through work with the Society for Prevention Research (SPR) and current work with the United Nations Office on Drugs and Crime to develop international standards for drug use prevention based on research evidence and training workshops for policy makers.

**John Toumbourou (Australia):** Professor Toumbourou is the Chair in Health Psychology within the School of Psychology at Deakin University in Australia. He is an Associate Director of the Deakin University Strategic Centre for Mental Health and Wellbeing Research. He has published over 220 papers, over 120 in peer-refered journals. He is a prominent social advocate in areas related to child and adolescent mental health promotion and the prevention of alcohol and drug problems. Professor Toumbourou has been influential internationally and nationally in assisting the development of research and practice in the fields of prevention science and health psychology. In 2006 he received the International Collaborative Prevention Research Award from the Society for Prevention research. His work has been cited in the reshaping of Australian health policies to more effectively address adolescent alcohol misuse and related problems.

**ITF Advisory Group Members**

**Gregor Burkhardt (Portugal):**

**Meen Chhetri (Nepal):** Dr. Meen B. Poudyal Chhetri has the experience in policy formulation and implementation; emergency/disaster management; awareness raising; training; planning and programming of development projects; improving database and collaboration and coordinating with national and international agencies. He is one of the Members of the drafting committee of National Law on Disaster Management. He greatly contributed in formulating and implementing a number of other Manuals, Guidelines, Action Plans and Hand Books on disaster management.

He has been appointed as the Adjunct Professor at the Queensland University of Technology, Brisbane, Australia from 1 March 2009. Prior to his high position at the Commission for the Investigation of Abuse of Authority (CIAA), he was the Deputy Regional Administrator at the Regional Administration Office, Central Region of Nepal. He also has the experiences of being the Director of the Department of Disaster Management, Chief District Officer of Dhading District, Under Secretary of the Ministry of
Home Affairs and Section Officer at various Ministries and Departments of the Government of Nepal for more than 34 years.

He earned a Ph. D. degree in Economics from the University of Vienna, Austria in 1995 and a Diploma in International Relations and Social Sciences from the same University in 1986. He also holds the degrees of Master in Economics, Bachelor of Law, Diploma in Education and Bachelor of Arts. He was a Humphrey Fellow in the year 2002-2003 at the Johns Hopkins University, Baltimore, U. S. A. specializing in Drug Abuse Research. He attended the Comprehensive Crisis Management Course held in Hawaii, U.S.A. from August 20 to 22 September 2009 and Pandemic Disaster Preparedness Training held in Brisbane, Australia from August 24 to November 29, 2008. He has carried out several research projects and made a number of publications in the national and international journals, particularly in the field of drug abuse, disaster management, corruption control and economic development. He presented papers and delivered invited lectures in several National, Regional and International Conferences, Seminars, Symposiums, Workshops, and Meetings as a country representative and delegate.

**Giovanna Campello (UNODC):** Ms. Giovanna Campello has been working on drug use prevention for the United Nations Office on Drugs and Crime since 1998. The Office provide technical advice to the Member States of the United Nations on how to implement drug prevention effectively, collaborating with many other national, regional and global organisations such as EMCDDA, CCSA, CICAD, Mentor, NIDA, WHO, etc. Ms. Campello has been leading the development of the International Standards on Drug Use Prevention recently published by UNODC and is currently working with the rest of the team on their dissemination.

**Hanna Heikkila (UNODC):** Ms. Hanna Heikkila, M.Ed., has been working in drug use prevention since 2007, and in coordination of international projects since 2005. Currently Ms. Heikkila works in UNODC as an Associate Expert in drug use prevention, and she has assisted in the drafting of the International Standards on Drug Use Prevention recently published by UNODC and is currently working with the rest of the team on their dissemination.

**Harrie Jonkman (Netherlands):** Dr. Jonkman is senior at the Verwey-Jonker Institute (the Netherlands). His work focuses on the social and cognitive development of children and young people, social determinants and prevention and involved in R&D, experiments and evaluations of prevention programs, longitudinal studies, and comparative studies at international contexts.

**Methinin Pinyuchon (Thailand):**

**Renati Solomon (India):**

**Jeremy Segrott (UK):** Dr Jeremy Segrott is a research fellow in public health in the Centre for the Development and Evaluation of Complex Interventions for Public Health Improvement (DECIPHer) at Cardiff University, Wales, UK. His main research interests are the prevention of alcohol misuse in young people, and the evaluation of family and school-based interventions. His current projects include a randomized controlled trial of the Strengthening Families Programme 10-14 UK, and an exploratory trial of Kids, Adults, Together - a school-based intervention which engages parents and seeks to promote positive family communication. He also has a keen interest in the use of social media, and jointly runs an online academic writers group on Twitter called #Acwri.
Dale Weiss, (USA-NIDA): Dale Weiss is the Associate Director of the NIDA International Program. The International Program works with colleagues from around the world to find evidence-based solutions to the public health problems of drug abuse, addiction, and drug-related HIV/AIDS. We build partnerships with countries, organizations, and individual researchers to promote new research initiatives, build international research capacity, and disseminate knowledge.

Current Activities of the ITF and International Networking Forum (INF) Topics

- The “prevention hub/prevention registry” workgroup

The aim of the Prevention Hub is to serve all those working in prevention by providing data, research, training, guides, networks and collaboration opportunities. Within the Prevention Hub the *Who is Who* section will focus upon providing an online directory of all working in the field, including practitioners and policy makers.

As part of this section Mentor and SPR and EUSPR are collaborating to create a sub-directory of prevention researchers / scientists. This specialized area of the Prevention Hub will allow researchers / scientists to create a detailed profile of their professional focus, areas of work and encourage possibilities for collaborative efforts. Users of the Hub will be able to access this information to enable communication, networks and combined work.

The Prevention Hub website will be launched on June 26th 2013, but the capability to submit to the *Who is Who* (registry) section of the website will be operational by 27th May.

The focus for the *Who is Who* development for the next 12 months will include:

- marketing activity and materials to promote submissions
- marketing to advertise the facility as a major part of the Prevention Hub
- user feedback to analyze it as a resource to facilitate effective prevention work
- development of the *Who is Who* section in line with user and evaluator feedback

- Identifying components of successful international collaborations workgroup

There is an ongoing effort to create provide a guide to forming and sustaining successful international collaborations across international boundaries, based upon experiences of colleagues who have worked together across countries. Issues that are unique to international collaborations are addressed. For example, choosing and developing partnerships, maintaining communications,
addressing cultural adaptation issues, implementing research designs, and co-authoring publications all require careful and thoughtful approaches when colleagues work internationally. This topic will be addressed in the International Networking Forum during the 2013 pre-conference meeting and the ITF will work to produce a constructive guide during the next year that can be shared.

- **Creating "seed monies" to support international collaborations**

In pursuit of accumulation of global knowledge on prevention science, the SPR International Task Force would like to offer "International Research Collaboration" grants. Such grants - recruited form global organizations, governments and individuals - would serve as seed money to initiate research collaborations among researchers from various parts of the world. It is hoped that in the long run, these international collaborations would lead to unique knowledge that would enrich the basics of prevention science.

Currently, an effort is needed to help up brainstorm ideas on how this issue could be promoted. Such ideas should consider a wide spectrum of relevant questions, such as: To whom such a research opportunity would fit most? Are there any priorities in listing the topics that match such international collaborations? What mechanism has to be established to promote such an act? However, the foremost problem to be considered is: What are the potential contributors (donors) to such grants and how to recruit them?

These and relevant issues would be addressed at the INF at SPR 2013. Following ING discussion a working plan for the coming 12 months will be prepared, aiming at presenting "The ITF Competition on Seed Monies for International Collaboration" already at SPR 2014.

- **Identifying the organizations and structures that create an International Infrastructure that can support international collaborations and activities**

During the 2013 INF meeting, representatives from various organizations will address the audience to discuss the ways in which their mission and activities, offer relevance to the attendees. In addition, the ITF will provide ongoing update of links to international organizations and activities that support collaborations.

**Ways to get involved**

1. Sign up for the registry
2. Sign up for workgroups at the meeting
3. Support colleagues at the SPR conference by attending international sessions

**Links to the SPR newsletter, Facebook page**

https://www.facebook.com/pages/Society-for-Prevention-Research-SPR/431737460237334

List of sessions and round tables of focusing on international research efforts at this year’s conference:

Tuesday:

1:00 PM-5:00 PM

International Networking Forum (Bayview A)

5:30-7:00

[Individual Poster Presentations] NIDA International Poster Session and Reception (Pacific D-O)

Wednesday:

08:30-10:00

[Plenary Session I]: Research in the Social and Environmental Determinants of Health: A Review and a Prevention Agenda (Grand Ballroom A) Speakers/Presenters: Augie Diana, Nancy A. Gonzales, Robert Freeman, Sandro Galea, Margarita Alegria and S. Leonard Syme

10:15 – 11:45

[Organized Paper Symposia] School-Based Prevention Research in Sub-Saharan Africa: Challenges and Opportunities (Grand Ballroom C) Symposium Organizer: Edward Seidman

[Individual Paper Presentations] The Effectiveness of Culturally Responsive Parenting Interventions in the U.S., Africa and Asia (Bayview B) Moderator: Sharon Kingston

1:15 – 2:45

[Roundtables] International Dissemination of Evidence Based Practice (Grand Ballroom C) Chair: Jeff Lee Discussants: Zili Sloboda, Giovanna Campello, Harry Sumnall, Fernando Salazar Silva and Rogers Kasirye

[Roundtables] Domestic and International Strategies for Prevention Research On Young Adult High Risk Behaviors in Drinking Establishments (Seacliff C) Chair: Jacqueline Lloyd Discussants: Marcia S. Scott, Brenda A. Miller, Ian W. Holloway, Johanna Gripenberg and Terrance Alan
Discussant: Marion Sue Forgatch

4:00-5:30

[Roundtables] The Role of Cultural Adaptation in Dissemination and Implementation Research (Pacific A) Chair: Jacqueline Lloyd Discussants: Belinda Sims, Nancy A. Gonzales, Nancy Whitesell, Felipe Gonzalez Castro and Moushumi Beltangady

5:45-7:45

Poster Session I:

The Role of Alcohol and Drug Availability and Laws and Norms in Explaining Cross-National Differences in Alcohol and Drug Use in Mumbai, India; Melbourne, Australia and; Seattle/ Tacoma in Washington State, USA: Renati Solomon, PhD, Karmaveer Bhaurao Patil (KBP) College; Shreeletha Solomon, MA, Institute for Child and Adolescent Health Research

Alcohol Abuse Among Adolescents in Europe: Cross-National Comparisons of Adolescent Alcohol Abuse and Policy Differences Harrie Jonkman, MSc, Verwey-Jonker Institut; Majone Steketee, PhD, Verwey-Jonker Institut

A Presentation of Alternatively Assessed BMI Scores and Obesity Cut off Percentiles Among a Sample of Italian Youth, Considerations for Prevention and Practice Enrique Ortega, PhD, California State University Dominguez Hills; Jenese Marie Girgis, BA, California State University, Dominguez Hills; Chiara Landsman, BA, California State University, Dominguez Hills; Danilo Marasso, MA, University of Turin; Emanuela Rabaglietti, PhD, University of Turin

General Knowledge and Attitudes towards Tuberculosis in Patients Attending a Free Clinic in Tijuana's Zona Norte: Understanding Barriers for Seeking Medical Care Perla Rodriguez, MD, Universidad Autonoma de Baja California; Victoria D. Ojeda, PhD, University of California, San Diego; Richard S. Garfein, PhD, University of California, San Diego; Jose L. Burgos, MPH, University of California, San Diego; Adriana Vargas, MPH, Universidad Autonoma de Baja California; Steffanie Strathdee, PhD, University of California, San Diego

A Pilot Feasibility and Effectiveness Trial of the Family Check-up Parenting Intervention with Spanish Pre-Adolescents and Their Families: A Cultural Adaptation and Feasibility Study to Enhance Evidence-Based Intervention Research in Spain Kathryn Margolis, MS, University of Oregon; Elizabeth Ann Stormshak, PhD, University of Oregon
US-Mexico Binational Quit Using Drugs Intervention Trial (QUIT) Lillian Gelberg, MD, MSPH, University of California, Los Angeles; Guillermina Natera, MSc, National Institute of Psychiatry Ramón de la Fuente Muñiz; Ronald M. Andersen, PhD, University of California, Los Angeles; Mario González, Dr, National Commission Against Addictions; Lisa Arangua, MPP, University of California, Los Angeles; Miriam Arroyo, MSc, National Institute of Psychiatry Ramón de la Fuente Muñiz; Julia Yacenda-Murphy, BA, University of California, Los Angeles; Nell Baldwin, BA, University of California, Los Angeles; Mani Vahidi, BA, University of California, Los Angeles; Lea Heller, BA, University of California, Los Angeles; Kyle Singleton, BA, University of California, Los Angeles; John Scholtz, BA, University of California, Los Angeles; Marianna Garcia, BA, University of California, Los Angeles

"I Decide My Life and the Life of My Municipality": An Intervention Model for the Promotion of Sexual and Reproductive Human Rights in Colombia Ana Maria del Rio, MSc, George Washington University; Hilda Gambara D'Errico, PhD, Universidad Autonoma de Madrid; Elvia Vargas-Trujillo, PhD, Universidad de los Andes; Marta Carolina Ibarra, MSc, Universidad de los Andes; Carlos Alberto Hermosa, BA, Universidad de los Andes

Binge Use of Amphetamine-Type Stimulants and Exposure to Violence Among a Cohort of Women Engaged in Sex Work in Cambodia Marie-Claude Couture, PhD, University of California, San Francisco; Neth Sansothy, MD, National Institute for HIV, AIDS, Dermatology and STDs; Jennifer Evans, MS, University of California, San Francisco; Ellen Stein, MPH, University of California, San Francisco; Lisa Maher, PhD, University of New South Wales; Keo Sichan, BA, Cambodia Women's Development Association; Kimberly Page, PhD, University of California, San Francisco

Do the Effects of Ecodevelopmental Factors On HIV Risk Behaviors in Hispanic Youth Vary by Region and Acculturation? David Cordova, PhD, University of Michigan-Ann Arbor; Sabrina Des Rosiers, PhD, Barry University; Shi Huang, PhD, University of Miami, Miller School of Medicine; Jennifer Beth Unger, PhD, University of Southern California; Lourdes Baezconde-Garbanati, PhD, University of Southern California; Elma Lorenzo-Blanco, BA, University of Michigan-Ann Arbor; Seth Schwartz, PhD, University of Miami

Does Social Capital Lower the Likelihood of Becoming Binge Drinkers Among Grades 9 and 10 High School Students? A Cross-National Comparison of Adolescents in Victoria, Australia, and Washington State, USA Rachel K. Leung, MMedSc, Deakin University

Effects of Recent Alcohol and Drug Use On Multi-Session Health Promotion Program Participation Among HIV-Infected Patients in St. Petersburg Russia Natalia Bushara, MD, St. Petersburg Pavlov State Medical University, Russia; Anita . Raj, PHD, University of California, San Diego; Elena Blokhina, PHD, MD, St. Petersburg Pavlov State Medical University, Russia; Debbie Cheng, PHD, Boston University; Sharon Coleman, MS, Boston University; Carly Bridden, MS, Boston University; Jeffrey Samet, PHD, MD, Boston University; Evgeny Krupitsky, PHD, MD, St. Petersburg Pavlov State Medical University

Optimizing HIV Intervention Through Understanding HIV/AIDS-Related Stigma in South Africa Leslie D. Williams, BA, New York University; J. Lawrence Aber, PhD, New York University
Deliberate Self-Harm with Household Poisons in Nigeria – Pattern of Presentation and Public Health Implications Adegoke Oloruntoba Adelufosi, MBBS, LAUTECH Teaching Hospital, Ogbomoso; Olukayode Abayomi, MBBS, LAUTECH Teaching Hospital, Ogbomoso; Ayantunde Kayode Ayankola, MBBS, LAUTECH Teaching Hospital, Ogbomoso; Adeoye Oyewole, MBBS, LAUTECH Teaching Hospital, Ogbomoso

Primary Prevention Is?: A Global Perspective On How Organizations That Partner with Men in Combating Gender-Based Violence Conceptualize and Operationalize Primary Prevention in Their Work Heather Storer, MSW, University of Washington; Erin A. Casey, PhD, University of Washington; Juliana Carlson, AM, University of Minnesota-Twin Cities; Jeffrey L. Edelson, PhD, University of California, Berkeley; Richard M. Tolman, PhD, University of Michigan-Ann Arbor

Examining the Role of Parenting Stress in a Treatment Outcome Study of Depressed Latino Youth Silvia Henriquez, MA, DePaul University; Sarah Bostick, MA, DePaul University; Antonio Polo, PhD, DePaul University

Impact of an Educational Intervention On Nigerian Medical Student's Attitude to Persons with Severe Mental Illness Olukayode Abayomi, MBBS, LADOKE AKINTOLA UNIVERSITY OF TECHNOLOGY TEACHING HOSPITAL; Adegoke Adelufosi, MBBS, LADOKE AKINTOLA UNIVERSITY OF TECHNOLOGY TEACHING HOSPITAL; Adeoye Oyewole, MBBS, LADOKE AKINTOLA UNIVERSITY OF TECHNOLOGY TEACHING HOSPITAL

Adolescent Sexual Risk Behavior and the Hispanic Paradox Tom A. Chavez, MA, University of New Mexico

Cultural Adaptation of Substance Abuse Interventions: A Review of the Literature Anne Marie Gewin, BS, University of Central Florida; Bobby H. Hoffman, PhD, University of Central Florida

Thursday

10:15 – 11:45

1:15-2:45

[Organized Paper Symposia] Increasing Participant Responsiveness for Latinos in Family-Based Prevention Programs (Garden Room B) Symposium Organizer: Cady Berkel Discussant: Irwin N. Sandler
[Individual Paper Presentations] The Effectiveness of Positive Youth Development Programs (Pacific C)
Moderator: Julie C. Rusby
3:00-4:30

[Individual Paper Presentations] The Efficacy and Long-Term Impact of a Culturally-Specific Parenting Intervention for Mexican-American Families (Pacific A)
Moderator: Pajarita Charles
6:15-8:00

Poster Session II:

Developing the Korean Immigrants & Mammography–Culture-Specific Health Intervention (KIMCHI)
Eunice Lee, PhD, University of California, Los Angeles

Randomized Pilot Trial of an Indicated Depression Prevention Program for Japanese College Students
Hiroshi Sato, PhD, Kansai University; Shino Takaoka, MA, Kwansei Gakuin University; Misa Inoue, MA, University of Kyoto; Takashi Mitamura, PhD, Doshisha University; Miyuki Noguchi-Sato, PhD, Kyoto University of Education

Impact of Informed Decision Making Booklet On Participation to the National Breast Cancer Screening in France: Results From a Randomized Controlled Trial
Veronique Regnier-Denois, PhD, L. Neuwirth Cancer Institute; Aurelie Bourmaud, MD, Lucien Neuwirth Cancer Institute; Patricia soler-Michel, MD, ADEMAS; Mathieu Oriol, MD, Lucien Neuwirth Cancer Institute; Nora Moumjid, PhD, Université Lyon 1 - GATE; Franck Chauvin, scientist professor PhD, Lucien Neuwirth Cancer Institute

Preventing Drug Use, HIV/AIDS and Crime Through Family-Skills Training Programmes in Low- and Middle-Income Countries: Multi-Country Field Experience Through a Global UNODC Project
Wadih E. Maalouf, PhD, United Nations Office on Drugs and Crime; Hanna E. Heikkila, MEd, United Nations Office on Drugs and Crime; Giovanna Campello, BA, United Nations Office on Drugs and Crime

Process and Effect Evaluation of a School-Based Prevention Program for Childhood Anxiety and Depression
Mia P. Kösters, MSc, Public Health Service Amsterdam; Mai J.M. Chinapaw, PhD, VU University Medical Center; Marieke Zwaanswijk, PhD, NIVEL, Netherlands Institute for Health Services Research; Marcel F. van der Wal, PhD, Public Health Service Amsterdam; Hans M. Koot, PhD, VU University

Moderators of a Family-Based HIV Prevention Intervention in South Africa: Relationship Power, Intimate Partner Violence, and Neighborhood Safety
Nicholas Tarantino, MA, Georgia State University; Nada M. Goodrum, BA, Georgia State University; Sarah L. Cook, PhD, Georgia State University; Lisa P. Armistead, PhD, Georgia State University
Parenting Interventions: Do They Affect Children Through Enhancing Positive Parenting or Through Decreasing Negative Parenting? Fabrizia Giannotta, PhD, Örebro University; Metin Özdemir, PhD, Örebro University; Håkan Stattn, Professor, Örebro Universitet, Örebro University Sweden

Preventing Dropout Among Latino Youth: Results From a Randomized Controlled Trial Patricia Simon, MS, University of Mississippi Medical Center; Eun-Young Mun, PhD, Rutgers, The State University of New Jersey; Brenna Hafer Bry, PhD, Rutgers University; Valerie L. Johnson, PhD, Rutgers University

Participants’ Satisfaction with an Immigrant Family-Skills Building Program to Prevent Tobacco and Substance Use in Latino Youth Diego Garcia-Huidobro, MD, University of Minnesota-Twin Cities; Jean-Carlo Chavez, BA, University of Minnesota-Twin Cities; Michele Allen, MD, MS, University of Minnesota-Twin Cities; G. Ali Hurtado, MA, University of Minnesota-Twin Cities; Veronica Svetaz, MD, MPH, Aquí Para Ti / Here For You

Drug Prevention Coalition Context and Capacity Assessment: Comparing the United States and Mexico Louis Davis Brown, PhD, University of Texas Health Science Center at Houston; Gabriel Holguin, BA, University of Texas Health Science Center at Houston; Sarah Meyer Chilinski, PhD, Pennsylvania State University; Rebeca Ramos, MA MPH, Alliance for Border Collaboratives; Nora Gallegos, MA, Alliance for Border Collaboratives; Mark Feinberg, PhD, Pennsylvania State University at Harrisburg

Creating the Conditions for Collective Impact in Disadvantaged Communities in Australia Through an Enhanced Prevention Support System Ross James Homel, PhD, Griffith University; Kate Freiberg, PhD, Griffith University; Sarah Branch, PhD, Griffith University

A Study of Effectiveness of Prevention Programs in Croatia Josipa Mihic, MA, University of Zagreb, Faculty of Education and Rehabilitation Sciences; Miranda Novak, MA, University of Zagreb, Faculty of Education and Rehabilitation Sciences; Clemens Hosman, PhD, Radboud University Nijmegen, Faculty of Social Sciences

Victimization and Perpetration Patterns Among Asian-Pacific Islander Youth Kristin Holland, MPH, Centers for Disease Control and Prevention; George W. Ryan, PhD, Centers for Disease Control and Prevention; Jeanelle J. Sugimoto-Matsuda, MS, University of Hawai`i; Brandi Nicole Martell, MPH, Centers for Disease Control and Prevention; Earl S. Hishinuma, PhD, University of Hawai`i; Melissa Holt, PhD, Boston University

Title Impact of Awareness Through Community Health Volunteer Approach On Prevention of HIV/AIDS Among Migrants in Ludhiana City Renu Bhasin, MSC M Phil, international Union for Health Promotion and Education Punjab Chapter

Who Becomes Vulnerable to Depression?: Voices of Young Asian-Pacific Islander (API) Women Hyeouk (Chris) Ha, PhD, LCSW, Boston University; L.
