

SCAVENGER HUNT

A cartoon detective character wearing a brown trench coat and a hat, holding a magnifying glass over his eye. He is standing to the left of the large 'SCAVENGER HUNT' text.

SPR ECPN will be hosting a FREE scavenger hunt for ALL attendees at the 2016 conference!

- The scavenger hunt will take place Tuesday (May 31) through Thursday (June 2).
- You can make your own group (3-5 people) or you can be randomly assigned to a group – this is a great way to meet new people at the conference and an easy way to network.
- A list of challenges will be emailed to you before the start of the conference along with the names of your teammates. Your first challenge is to find your teammates!
- Other challenges will consist of attending certain events or taking photos with certain attendees. This is a great way to introduce yourself to senior scientists!
- Completion of each challenge will be validated by a team post to the SPR Facebook page.
- There will be prizes awarded to daily winners and overall winners. Prizes include free SPR 2017 membership and APPLE gift certificates!

Register for the scavenger hunt at the same time you register for the conference

Early career scientists encouraged to participate

Great for senior scientists too

Students of all levels are welcome!

Perfect event for first year attendees and solo attendees
