

## SPR 2017 FELLOWS

**Diana H. Fishbein, PhD**

This year, we are pleased to present the **SPR Fellow** to **Dr. Diana H. Fishbein**, director of Edna Bennett Pierce Prevention Research Center and professor of Human Development and Family Studies at Pennsylvania State. Dr. Fishbein leads a group of clinician and basic scientists who share a common interest in translational neuroscience research to improve the lives of those who suffer from sleep disorders, drug abuse, and more. An expert in behavioral neuroscience, Fishbein was most recently professor and director of the Center for Translational Research on Adversity, Neurodevelopment and Substance abuse in the Department of Psychiatry at the University of Maryland, School of Medicine. As director of the center, Dr. Fishbein led a group of clinician and basic scientists who share a common interest in translational neuroscience research to improve the lives of those who suffer from mental, emotional and behavioral problems.

Dr. Fishbein conducted studies utilizing transdisciplinary methods and a developmental approach to understanding interactions between neurobiological processes and environmental factors. Additionally, she led studies that found deficits in certain neurobiological functions compromise responses to both preventive and treatment interventions. Dr. Fishbein's ultimate research goal is to translate scientific findings to practice and policies designed to prevent mental health, emotional and behavioral problems. Dr. Fishbein has written and edited several books and about 100 journal articles, including two special journal issues. She is the creator of the National Prevention Science Coalition to Improve Lives, a national organization dedicated to the transfer of knowledge from the basic to the applied sciences as well as practical settings and public health policies. She also wrote the etiology

section of the International Standards for Drug Abuse Prevention for the United Nations, and developed a training curriculum for policy-makers worldwide.

Dr. Fishbein earned a doctorate in criminology and psychobiology from Florida State University in 1981, with a minor in statistics. She earned a Master of Science degree in criminology from Florida State University in 1977, with a specialization in psychobiology, and a Bachelor of Science degree in criminology and psychobiology from both Florida State and the University of Maryland.

**John Edward Lochman, PhD**

This year, we are pleased to present the **SPR Fellow** to **Dr. John Edward Lochman**, director of Center for Prevention of Youth Behavior Problems and Professor and Doddridge Saxon Chair in Clinical Psychology at the University of Alabama. He has authored more than 300 scientific articles, chapters and books, and his work has primarily focused on the causes and consequences of highly aggressive behavior in childhood. In addition to his prevention research on the Coping Power program, Dr. Lochman also is a co-principal investigator on a study of the preventive effects of the comprehensive, intensive Fast Track program, designed to prevent adolescent conduct problems, funded by National Institute of Health (NIMH). Dr. Lochman serves on grant review committees at NIH and at several private foundations. He is on the editorial boards for the Journal of Clinical Child and Adolescent Psychology, Behavior Therapy, Developmental Psychology, and the Journal of School Psychology, and he is the editor-in-chief for the Journal of Abnormal Child Psychology.

Dr. Lochman's second area of research has been the study of comprehensive preventive interventions for
