

**Society for Prevention Research  
30th Annual Meeting  
TED-Like Talk Instructions**

A TED-Like Talk presentation provides for multiple oral presentations to be made on a **single theme**.

The TED-Like Talks should offer commentary, present new ideas, promote a new direction, or emphasize a take-home message from your work that transcends single empirical papers.

The TED-Like Talk is less of a research format, more personal, process orientated, concise, and presents innovative and ground breaking ideas. The talks should be engaging and inspiring.

Presentation Length

Each session is 90 minutes in length. The chair should give a brief introduction. Presenters have 10 – 15 minutes total for their presentation. Each presenter should only have a few slides that relay concepts or visual aids and have very limited text. After the 4-6 presentations there will be 30 minutes for active discussions/questions.

AV Equipment, WIFI and Internet- We do NOT recommend that TED-Like Presenters “Zoom-in”

LCDs are standard in each meeting room. Presenters are asked to bring their own laptops or plan to share with another presenter. All other AV requests required advance approval. If you use a MAC it is a good idea to bring an adapter to connect with the LCD.

Conflict of Interest Statement

When applicable all presenters should include his/her conflict of interest disclosure statement in his/her presentation either orally or within the first slide.

Contact Information

We request presenting authors to provide their contact information on the opening/closing slide. We encourage participants to contact presenting authors.
